the Store Manager.

During the past eight months we have had a good many obstacles placed in our way; for we, as you remember, had to move from our old location and before we could move, fire overtook us and completely destroyed and ruined our stock. This caused us to lose considerable money and being handicapped for a location caused us to lay in wait for a proper location and then we lost considerable more money. All of this has worked us up to a high pitch, but we are all right now, being located in a new brick building and we have set our minds to working and we are going after business. Our buyer has been away on a buying trip and has just returned after buying considerable merchandise at today's low prices and in fact lower, for he found eastern business firms wanted business and money and in order to get it they did some awful price slaughtering, so we took them up for cash buying. Our big stock is at your disposal, which will put you in line for the big slash in prices that will assist everyone to buy Winter Clothing, Shoes, Hats, Caps, etc., at big money savings.

## METHODISTS OF NORTH DAKOTA IN CONFERENCE

Gathered at Valley City They Hear of Activities of Church Societies

### BIBLE IN 713 LANGUAGES

Valley City, N. D., Oct. 5.—The Bible has been printed in 713 languages and dialects in the 195 years since the American Bible Society was organized, says Rev. S. H. Kinsinger of Chicago, secretary of the North Dakota conference of the Methodist Episcopal church held here today.

The American Bible Society has sent out over a hundred million copies of the Scriptures, says the Rev. M. Kirkpatrick, who is a representative of the society.

During recent years, counting an average of eight hours worked each day, and omitting Sundays and holidays the output of the society has been an average of sixteen books printed and bound every minute of every working day of the year. Many of these books were large columns in embossed type for the blind, and handsome editions for public and private use.

**How Bibles Distributed.**

The society distributes the Bible not only in the languages in which it is printed, but its workers are furnished with any translation which may be needed.

During the past decade some complete book of the Bible has appeared in a new language on an average of one every six weeks—the British and Foreign Bible Society and the American Bible Society, being the chief producers.

Boards of the Methodist Episcopal church control 70 hospitals capable of

caring for 120,000 patients with a total value in buildings, equipment and endowment of \$15,849,000, the Rev. Dr. N. E. Davis of Chicago told the conference. Dr. Davis is corresponding secretary of the Methodist board of hospitals and homes.

**11 New Hospitals.**

Erection of the 11 new hospitals representing an outlay of \$8,000,000 has been approved.

These hospitals minister to every body and age and are putting into practice the real spirit of Christ and His ministry for healing of the sick and afflicted," said Dr. Davis. "It is the purpose of the church hospitals to see that the very best of high grade technical service is rendered to all people who come to them for service."

The most emphatic way in which the church can get its message of evangelism to the needy community is merely to minister to it in such a way that soul and body will receive the impression that Jesus Christ is near in the lives of His ministers and servants who are carrying out His program today.

The homes for the aged and children are promoting in an extensive way the interests of child life and the care of the aged. At the present time there are 11 homes for aged and 42 homes for children. The homes for the aged can care for about 2,000 per year and the homes for children annually take care of about 2,500.

## KU KLUX FIGHT VICTIM DIES

Waco, Tex., Oct. 5.—Louis Crow, victim of the Loring fight Saturday, died this morning. Crow was a spectator at the time Sheriff Bullock and two of his deputies attempted to stop a Ku Klux Klan parade. He was near the scene of the fight and was trying to prevent a clash, it is understood, when the shooting began. He was stabbed in the right breast, the knife entering the lung and liver.

## TOWNLEY APPEAL WILL BE FOUGHT

St. Paul, Oct. 5.—James E. Markham, assistant attorney general, who was assigned to the A. C. Townley case by Attorney General C. L. Hilton, will go to Washington this week to appear before the United States Supreme court in opposition to the application for a writ of error in the Townley conviction, in the last chapter to the three-and-a-half-year-old case.

All of the points and questions of law which are raised in this appeal were determined by the United States Supreme Court in the case against Joseph Gilbert, former Nonpartisan league leader in Minnesota, and it is his opinion that the attempted appeal in this case is without merit, Mr. Markham said Monday night.

## CONTRACTS FOR GRAIN SELLING ARE BEING MADE

Chicago, Oct. 5.—The United States Grain Growers, Inc., announced today that the directors had authorized the officers to make temporary contracts with various grain markets for the marketing of 30,000,000 bushels of grain raised by its members.

The contracts are to expire not later than thirty days after the annual convention here next March. The organization has so far marketed 200,000 bushels of wheat in the St. Paul-Minneapolis territory.

### HEALTH IS A WOMAN'S GREAT ASSET

Contrast the cheerful happy woman with head erect, the glow of health on her cheeks, the elastic step and bubbling enthusiasm as she goes about her daily tasks, with the woman who suffers from backache, headaches, dragging down pains, nervousness and despondency. Such conditions are undoubtedly caused by woman's ailments which will yield to Lydia E. Pinkham's Vegetable Compound, which for many, many years has been restoring weak, ailing women to health and strength. Every woman who suffers in this way owes it to herself to at least give it a trial.

During summer, while Lake Gritznitz in Europe is dry, the bottom is sowed and harvested.

## HAVE COLOR IN CHEEKS

Be Better Looking—Take Olive Tablets

If your skin is yellow— complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for cod liver oil—were prepared by Dr. Edwards after 17 years of study.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color.

To have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days you must get at the cause.

Dr. Edwards' Olive Tablets act on the liver and bowels like cod liver oil—yet have no dangerous after effects.

They start the bile and overcome constipation. Take one or two nightly and note the pleasing results. Millions of boxes are sold annually at 15c and 30c.

## GULF-CANADA TRAIL PLANNED

North Star Route Will Run Through Marmarth to Canadian Line

Marmarth, N. D., Oct. 5.—Following upon the efforts of the Marmarth Mail as made last spring toward the organization of a North and South Trail, which then resulted in the Black Hills towns mapping and marking the Trail from Belle Fourche to Marmarth, the move has continued to spread and accumulate force until last week when a meeting was held at Deadwood for the purpose of organizing and promoting the North Star Route a Trail to connect the Gulf of Mexico with the Canadian border via Black Hills and Marmarth.

Assurance has been given by W. E. Holbein, Secretary of the North Dakota Good Roads Association, that when the North Dakota road system is again presented to the Legislative Assembly, the newly surveyed and proposed road connecting Marmarth with Beach will be made a part of the system. With this road opened up and improved, and with a further extension of the same route, connecting Beach with Williston, there will be an excellent route open to North and South travel from the Canadian border to the celebrated and picturesque Black Hills region.

**DAY OF RECKONING**

Wine drinkers in France are dismayed by a short crop of grapes in the Cote d'Or district, from which comes that relic of ancient America—"sparkling Burgundy."

The short crop, due to mid-summer frost, will not immediately affect the wine market, for real Burgundy ages in the cask 10 years. This summer's short grape crop will be reflected in higher prices and shorter supply of the Burgundy that will be released for drinking in 1931.

What happens today has no effect for 10 years.

Life is a lot like the grape crop in Burgundy. The mistake you make now, the evil you do now, the good you do now, may not have an immediate effect. But time will claim the toll or pay the reward.

Emerson, greatest American philosopher, called it the Law of Compensation.

His theory is this: That, all through nature, there is at work a law of action and reaction, that all actions have certain inevitable effects, that evil generates punishment and a good deed creates its reward.

Was Emerson right? Or do many of us have to wait for the Hereafter for the day of reckoning? In either event, we are paid for what we do, we get exactly what we pay for.

This is as true of nations as it is true of individuals. It explains the raise and fall of civilizations and empires.

A relatively easy study to master is psychology—the analysis of self, the study of human nature, of man individually and in his relations with other men.

Salesmen, more than any other class, have applied and profited from psychology, which is merely a branch of the law of action and reaction which Emerson called Compensation.

More difficult is that greater branch of the Law of Compensation—philosophy, science of causes, and reasons, powers and laws.

So difficult, indeed, that billions live and die between the arrival of philosophers on earth. Authentic history covers thousands of years, yet the great philosophers can be named on your fingers—Confucius, Socrates, Voltaire, Abraham Lincoln, Solomon, Shakespeare, Aesop, Einstein, Haeckel, Emerson.

And, after all, the philosophers learn nothing except that action produces inevitable reaction, that evil eventually is punished and good rewarded.

Think back over your own life. How has the Law of Compensation fitted in your case? How much of our punishment and reward do we get here on earth?

**WOLF**

The colder the winter is going to be, the more nuts you'll find a squirrel storing away. Squirrel doesn't take any chances. But humans do, especially Americans.

The Treasury Department says that the average American has only \$250 savings. That's a mighty thin door to build against the wolf. Normally ours is a very prosperous country. That lulls us into a false feeling of security. Probably we'd soon stop saving altogether, if we didn't have periodic hard times to jolt us to our senses.

**THE MARVEL**

To grow the crops that feed you, requires an average of 20 inches of rainfall, or 2260 tons of water to the acre.

If rain stopped falling and we had to haul water to farms from rivers and lakes, the labor involved would be so enormous that people would have to stop manufacturing, abandon their cities and their civilizations, and all flock to the country. The effort required to haul water and wrest a living from the soil would be so big that we would not have time for anything else.

A few showers or their absence make tremendous differences in humanity's scheme of things, says a bulletin of the National Geographic Society.

No wonder we all talk about the weather.

No wonder we all are forever speculating whether it will rain or not. That isn't prompted primarily by concern over the effect of rain on our clothes and intended trips. It is an inheritance from ancestors who did no work except to get food, and to whom a shower often means a rescue from death.

Nature does 90 per cent of the work that furnishes our living. All we do is run around the

machine with an oil can and grab the finished products when they are ready for consumption.

We turn our puny powers to the soil. Nature responds, does nine times as much work, and by mysterious alchemy brings food out of barren earth.

We burn coal, and take great pride in our ability to mine it under difficulties. Wise nature provided that coal millions of years ago when she buried giant forests and turned them into fuel.

Millions of years ago, nature put in the ground the oil and metals without which there could be no machinery or civilization.

Nature furnishes the trees for our lumber. We take what we want, and wantonly destroy many more.

Two impressive facts loom up, as you study nature:

First: That nature is on the side of every human, wants us to survive and be happy, and began millions of years ago to prepare a feast of plenty for us.

Second: The preparation of the earth and its resources for man did not happen just by chance. Back of it all is the marvelous intelligence that we instinctively call God. Only the foolish can deny His existence after a glance at the wonders of nature.

Is man—warring, greedy, cruel—worthy of the rich storehouses of the earth? So far, no. In time? Possibly. If not, if man proves himself unworthy, he will go the way of the dinosaur and the mammoth—into extermination, and a new form of life will rise in his place.

**OUR SMALL DEBT**

You shiver when our national debt is mentioned. It is about \$24,000,000,000. A huge sum. Yet the interest on it is only \$8.65 a year for each of us.

So with all our other national problems. They look enormous. But there's an enormous nation under our flag, to share the burden.

We pay \$8.65 a year, each, to carry our debt. Austria pays \$106.77, Germany \$41.61 (not counting indemnity), France \$47.76, England \$36.45. Those seem large, yet small enough to be handled. Europe can come back financially—if it keeps its head, works hard and has sound leaders.

**OBJECTS**

Prominent Los Angeles man objects to the statement that the movies made Los Angeles. He says it can be proved on paper, and just as accurately, that oil made Los Angeles—or autos, or any one of a dozen things.

"Climate made Los Angeles," he concludes. "The development giving it 600,000 population were due to climate and nothing else. In a comparatively few years, Los Angeles will be the third largest city in the country."

The thing that really makes any town is its people.

**EDITORIAL REVIEW**

Comments reproduced in this column may or may not express the opinion of The Tribune. They are presented here in order that our readers may have both sides of important issues which are being discussed in the press of the day.

**KU KLUX KLAN**

If the new Ku Klux Klan is all that its officers claim for it has at least shown surprisingly poor taste in choosing a name. If it is really devoted to all the high ideals enumerated in official statements it has no need of adopting the senseless mummery of its discredited namesake.

The Cleveland city council by unanimous vote condemns the proposed organization of the Klan in this city, after the mayor has denounced its influence as detrimental to the well being of the community. The council's action will be generally approved, even though the public knows little of the organization in question. Its name condemns it.

In a "proclamation" issued three weeks ago by authority of the supreme committee of the Klan the "imperial wizard"—obviously a high official of the organization—declared the "knights" of the Klan to be "a law-abiding, legally chartered, fraternal order designed to teach and inculcate the purest ideals of American citizenship, with malice toward none and justice to every citizen regardless of race, color or creed."

A resounding declaration is this of the "imperial wizard." But why call it the Ku Klux Klan and why give it the character of a secret, mysterious order that shrinks from public observation? The teaching of Americanism does not require mummery, nor are the "purest ideals of citizenship" best promoted by such tactics as marked the activities of the original Klan "Knights" whose exploits stir unpleasant memories through the south, and the border states.

The city council sounds a proper warning against countenancing an organization that comes in such a guise. Even admitting purity of purpose on the part of those behind the new Klan in its early stages, it is obvious that an organization so conceived and so named is likely to be made the vehicle for grave abuses, becoming at times not a safeguard but a menace to Americanism. Love of country is not promoted by sheeted horsemen scurrying under cover of darkness on mysterious errands. Quoting Lincoln in a proclamation is no guarantee of sincerity.

Cleveland needs no Ku Klux Klan. Neither does Ohio or the rest of the country.—Cleveland Plain Dealer.

**ADVENTURE OF THE TWINS**

By Olive Barton Roberts

This was the letter that Cap'n Pennywinkle received from the Fairy Queen. He read it aloud to Nancy and Nick, and all the Wiggles heard it.

"Dear Captain Pennywinkle," it went:

"I sent my messenger, Silver-Wing, to find me a large pink pearl in the South Sea. He found one under a coral reef, inside of a big pearl oyster, who kindly consented to give it to him. But flying home over your part of the Briny Ocean, Silver-Wing took it out of his pocket to look at it, and it fell into the sea. Will you please get the Twins to help you to find it, if they have not lost their Magical Green Shoes, and if they still have the Charm the Magical Mushroom gave them, so that they may speak to all the Wiggles in the sea. I hope that you may be successful in finding this beautiful pearl, as I want it for my crown."

"Very trustfully yours,

"The Fairy Queen"  
"Shiver my timbers!" exclaimed Cap'n Pennywinkle, slapping his knee. "If it isn't just one thing after another! Did anyone see or hear any thing about this pearl while I was away?"

Lop Lobster said he hadn't, and Crawly Crab said he hadn't, and all the shrimps and prawns and whelks said they hadn't. And the sea-horse wiggled his horns and said he hadn't, and got so excited about it he spat purple juice in the water, which annoyed the fairyman policeman very much. "Say, there!" he shouted, "you'd be a fine one to hunt for anything, wouldn't you! You can help most by making yourself scarce!"

The cuttle-fish said he hadn't seen any pink pearl and so did Mr. Cod and all the big fish, who went on long journeys.

"We'll have to search for it ourselves, kiddies," said Cap'n Pennywinkle.

**MANDAN NOTES**

**CANDY DIVIDENDS RECEIVED**

The Nut Quartette of Mandan, which has received more publicity and created more favorable comment than any booster organization in the northwest in the past two years drew dividends yesterday.

The quartette are not singing for pay but the following letter from J. H. Allen of the Allen Quality company, St. Paul, proves the popularity of the quartette.

St. Paul, Minn., Sept. 20, 21  
The Mandan-Washington Fruit Co., Mandan, N. D.  
Gentlemen: We received some time ago a booklet of songs, some by your famous Nut Quartette, and I regret to say that I overlooked that beautiful little ditty sung for the Mandan-Washington Fruit Co. until today, when I went over the songs for a second time.

We have been complimented, humbled, congratulated, and damned but this is the first time we have ever been sung at and I assure you, by a beautiful little ditty sung for the Mandan-Washington Fruit Co. until today, when I went over the songs for a second time.

We are sending in care of you a box of Allen Quality chocolates, so that they will rather howl at you when you sing about a product worth while.

With our very best wishes for your success and your splendid booster organization, we remain,

Very sincerely yours,

Allen Quality Company

**PROCLAMATION**

**FIRE PREVENTION DAY**  
The increasing and needless destruction of our country's resources by preventable fire is a challenge to our future prosperity. In spite of our costly experiences of ruinous conflagrations during the past half-century and our present great need of conservation, the burning up of our created wealth with attendant heavy loss of life ages on apparently unchecked.

Over \$140,000,000 of our resources were destroyed by fire in the five years from 1915 to 1919 inclusive. Excepting for the year of the San Francisco catastrophe, 1921 witnessed the greatest years' loss we have ever suffered, with a total of \$500,000,000. But greater than this pecuniary loss, and more important, is the loss of human lives. Approximately 15,000 persons, mostly women and children, are burned to death in the United States each year, and a still larger number are seriously injured.

The prevention of this sinful waste is unquestionably one of the high duties of citizenship. It affects the welfare of each of us and the future greatness of America.

Therefore, I, Lynn J. Frazier, Governor of the State of North Dakota, by the authority in me vested, do designate and proclaim

OCTOBER 9, 1921

**FIRE PREVENTION DAY**  
and I urge every citizen of this state to take active part in making this day and period of practical value to that end. I trust that the proper public departments, in cooperation with local organizations, may plan such instructive and educational exercises as shall impress the public mind with the purpose of this day's observances. I ask that our churches, through their pulpits and Sunday Schools, shall help to spread this doctrine of carefulness. I urge the promotion in our schools of systematic instruction in fire prevention, constant observance of the ordinary precautions that safeguard us from fire, and orderliness in home and community.

Only by a public awakening to the everpresent fire peril and a knowledge of the same to avert it, can we prevent this calamitous wastage.

May every citizen of our state join in fixed purpose to make this October 9th—fiftieth anniversary of the great Chicago fire—the beginning of a new and better economic era for our country.

Given under my hand and the Seal of the State this third day of October, in the year of our Lord one thousand nine hundred and twenty-one.

**AT THE REX**

When youth and innocence get so far into the land of "make believe" that they cannot find their way out again there is apt to be serious consequences. That "Ginger" King escaped the consequences was due to sheer luck and nothing else.

"Ginger" is the unsophisticated daughter of a rich senator, portrayed by Olive Thomas in her latest Selznick picture, "The Flapper," which is to be shown at the Rex theater today and Thursday. As an added attraction Harold Lloyd, Bebe Daniels and Snub Pollard will be seen in the nifty comedy "Bashful."

Friday only the Rex will present the Marsus Lowe Vaudeville Road Show. Saturday will be a big amateur night.

**THE ELTINGE**

A picture for young and old alike—that is the description that may be applied to Paramount's screen version of Sir James M. Barrie's "Sentimental Tommy," which will be the feature at the Eltinge Theater today and tomorrow.

It is doubtful that many grown-ups exist who haven't a fond memory of Tommy's imagination and practically all of the youngsters today have read about him at one time or another.

The story begins with Tommy's entrance with his sister, Elspeth, to the Scotch village of Thurms and his rescue of Grizel from a crowd of youngsters who are throwing stones at her. It gives many episodes showing Tommy's flights of imagination which are humorous and wholesome. The story takes Tommy and Grizel to maturity when Grizel becomes demented after she finds her childhood sweetheart with another woman in his arms. The climax scenes are dramatic and full of heart interest.

The role of Tommy is played by Gareth Hughes, a popular young leading man. May McAvoy is Grizel.

Bonnie Scotland, an Outing Chester and an Aesop Fable comedy, "The Rooster and the Eagle," are showing in connection with "Sentimental Tommy."

**AT THE BISMARCK**

"Uncharted Seas," a Metro special adapted from the Munsey Magazine short story of John Fleming Wilson, comes to the Bismarck Theater tonight for a run of two days, with Alice Lake in the stellar role.

The marvelous combination of a gripping story from the pen of the above short story writer, and the supreme acting of Miss Lake is enough to ensure an evening of unequalled pleasure and thrills to all that see it, and this is already borne out by the thousands who have seen the picture in other cities.

As Lucretia Eastman, the young woman who risks her husband a last chance to regenerate himself and prove that he is a better man than an arrogant rascal and coward, Alice Lake has a role prominently fitted for her powers. The theme of "Uncharted Seas," with its climax far up in the Behring Straits amid dangers that beset travelers, far out of the beaten road of pictures.

New York Awake Early For First Big World Series Game There Today

FIREMAN FIRST IN LINE

Auburn, N. Y. May Says He Has Not Missed World Series and Doesn't Intend to

**WHAT MANAGERS SAY**  
New York, Oct. 5.—I am confident, but not certain, declared Miller Huggins, manager of the Yankees, "I am relying on the courage of my players and their general ability," said John J. McGraw, the Giants' leader.

Thus did the rival managers sum up their last-minute opinion as they prepared to match their own wits and resourcefulness in the opening game of the world series at the Polo grounds today.

New York, Oct. 5.—(By the Associated Press)—New York was awake early today to enjoy the initial game of the world series.

Before the two teams, the Giants and the Yankees, went to battle at the Polo grounds, crowds of fans from the four corners of the earth were hurrying for the park hoping to gain admittance to the arena or the back hall world.

Some in fact did not sleep at all. At midnight several of them gathered at the entrance to Brush stadium, the first in line and the first in the park—if they didn't fall asleep and awake to find some more alert fan in their place. By 1 o'clock about 50 of them were in line.

Heading the line was Charles M. Kiers, 29, a fireman from Auburn, N. Y. He said he had not missed a world series yet and doesn't intend to.

**Raw Wind Blows**  
It was a cold night for the waiting fans. A raw wind accompanied by frequent showers brought out overcoats, blankets and even old newspapers to keep the enthusiasts warm.

But the inclement weather failed to dampen them. They stuck to their posts like soldiers. Not a few brought their own sandwiches and hot drinks in various bottles while others bought early breakfasts of "hot dogs" and coffee from vendors who did a lively business.

The fans afoot were not the only ones among the early arrivals, a number of automobiles reaching the surrounding streets after midnight. Drawn curtains indicated the occupants were asleep awaiting daybreak and a chance to buy a ticket.

**Crowd Grows Larger**  
Foy's did a thriving business selling small wooden boxes to those in line so they could rest their weary bodies.

Toward daylight as the crowd grew larger and the line longer the police had some arguments to settle, but it wasn't strenuous labor.

If the opinion of the bleacherites was any indication of the outcome of the game the Giants will win. All along the line the National Leaguers were favored over the Yankees. Yet those who supported the latter club made up in noise what they lacked in number.

**MCGRAW NAMES PLAYERS**  
New York, Oct. 5.—Twenty-three players, two coaches and Manager McGraw were announced at National League headquarters as eligible for the world's series. The list includes eight hurlers, four catchers, five infielders and six outer gardeners.

The list follows:  
Pitchers: Arthur Nehf, Fred Tony, Phil Douglas, Jess Barnes, Pat Shea, Harry Sallee, Bill Ryan and Cecil Causey.

Catchers: Frank Snyder, Earl Smith, Alex Gaston and Mike Gonzales.

Infielders: George Kelly, John Rawlings, Dave Bancroft, Frank and Walter Kopl.

Outfielders: Ross Young, George Burns, Emil Meusel, Bill Cunningham, Eddie Brown and Cassey Stengel.

Coaches and managers: Cozy Dolan, Hucley Jennings and John McGraw.

**BARROW GIVES LIST**  
New York, Oct. 5.—Business Manager Edward Barrow of the New York American League club, announced the following list of players as eligible for the world's series:

Catchers: Walter H. Schang, Fred Hoffmann, Alfred DeVormer.

Pitchers: Carl Mays, Robert Shawkey, Harry Harper, Warren Collins, W. Hoyt, Alexander Ferguson, William Pierce, Thomas Rogers.

Infielders: Walter Pipp, Aaron Ward, Ezer Peckinpaugh, Mike J. McNally, J. Franklin Baker, John Mitchell.

Outfielders: George H. Ruth, Elmer Miller, Robert Meusel, Robert Reth, N. E. L. Hawkins, Wilson Fawcett.

Manager: Miller Huggins.

## THE YANKEE INFIELD

Here are the fast players of the New York American infield in which Miller Huggins places much hope in the world series.

## EAST TO MEET WEST IN GRID GAME SATURDAY

Harvard and Indiana University to Meet on Harvard Grid-Iron

New York, Oct. 5.—The first inter-sectional football game of importance in the east this season will be played at Cambridge, Mass., next Saturday when Harvard meets the Indiana University eleven, making its eastern debut. The success of the inter-sectional struggle between Harvard and Center College (Ky.) last season prompted the Crimson committee to place Indiana on its 1921 schedule. Harvard will meet the University of Georgia team Saturday, October 15, and two weeks later will be pitted against Center.

Spurred by the realization that the Hoosier team has its first chance to break into the limelight of eastern football, Coach Ewald Stiehm, is bending to the task of whipping his gridmen into shape. And so out at Bloomington, Indiana, the home of the Indiana eleven, he is daily sending his charges through the hardest sort of a training program.

Stiehm has been handicapped by the western conference rule prohibiting a coach from taking charge of his team until September 15, and has not been able to give his men the sort of work needed to perfect a machine to give Harvard an even battle. He hopes to overcome this handicap, however, and his men are giving him the best of cooperation, according to reports from Bloomington. The Indiana coach has nearly all of last year's varsity players and the work of the new men has been good.

The Hoosier eleven threw away its chances of a tie for the western conference leadership last season by losing its first game of the season to Iowa 14 to 7, tumbling at a critical moment. After that disaster, the Hoosiers took three Big Ten eleven into camp and held Notre Dame to a 13-10 score.

Indiana's greatest triumph against eastern football methods came two years ago when they defeated the strong Syracuse university eleven at Bloomington 12 to 6.

Harvard is training as usual and awaits the coming of the Hoosiers with confidence. Enthusiasm in the student body has reached a pitch somewhat akin to that which preceded the Harvard-Center game last year.

## LOUISVILLE AND BALTIMORE MEET

Louisville, Ky., Oct. 5.—"Fair and Warmer." Such in substance was the weather man's prediction for today.

Louisville baseball fans thrilled over the prospect of seeing the Louisville American Association club and the Baltimore International fight for the minor league championship.

With both teams announced as ready the first game of the series is

## TOWNSITES TURNED BACK INTO FARMS IN OREGON WHEN RAILROAD PLAN FAILS

Bend, Ore., Oct. 5.—Several "mirage" cities, built on paper about ten years ago in the sagebrush country of central Oregon along the supposed route of a railroad that failed to appear, are being turned back into acreage by refusal of owners of the city lots to pay delinquent taxes.

Between the years of 1909 and 1914, when the railroad was expected, ambitious city planners laid out several townsites and sold lots to people in many parts of the United States. Salesmen took a few dollars down and payments as low as fifty cents a week for the land.

When the railroad failed to appear, most of the land owners became discouraged and abandoned their property. Now county officials are busy turning the towns back into acreage. In some cases the owners are still paying and will realize on their investment and courage in the railroad

ever does build. In the town of Imperial, one of the "mirage" cities, all but three per cent of the assessed valuation has gone delinquent. The townsite was worth \$5,130 on the assessor's book and the taxes for 1920 were \$349.28, about \$10 of which were collected. Imperial is 60 miles east of Bend.

Promoters of Terrebonne, another sagebrush town, laid out 178 blocks, with 30 to 32 lots in a block, nearly all the lots 25 by 100 feet. Terrebonne originally was named Hillman, a combination of the names of Hill and Harman, the late railroad magnates. There are a few business buildings and homes at Terrebonne and the county expects to collect about \$850 of the \$2,540 tax levy.

Harper, eight miles south of Bend, with about 250 platted lots has been taken off the map and thrown back into acreage.

scheduled to start this afternoon at 2 o'clock central time, 1 hour after the big leaguers have started in New York.

## BELIEVE BOY HANGED SELF

14-year-old Boy Scout Found Dead in Closet

Chicago, Oct. 5.—Samuel Bussington, 14-year-old Boy Scout, who was found hanging in a closet Sunday afternoon with his hands tied behind his back came to his death through an accident while at play, according to an opinion expressed today by Ben Newmark, chief investigator of the state attorney's office.

Newmark announced his theory following an all-night grilling of the boy's mother and step-father and his 10-year-old brother Hush. The brother described his "opinion" of how Samuel might have died.

"Someone might have tied his hands," he said, "and might have fixed the rope around his neck and Samuel might have stood upon a stool and then accidentally kicked it out from under him."

Hush was still held at a hotel today, but his parents were released to attend Samuel's funeral.

**TO CONSIDER SUNDAY CLOSING**  
Minot, N. D., Oct. 5.—In an effort to create keener interest in the organization a special meeting of the Minot Merchants' Credit association has been called for 7:30 p. m. Wednesday evening in the Minot Association of Commerce rooms. One of the matters to be taken up is plans to have the Sunday closing law enforced in Minot.

There are 38 pyramids in Egypt and they stretch for 50 miles along the Nile.

How About Your Stomach?

If Acid, Sour, Gassy and You Bloat or Feel Stuffed Up, After Eating Try Stuart's Dyspepsia Tablets. The stomach may be rather sluggish in digesting the fried eggs you eat for breakfast and the delicious

croquette and salad for lunch. On top of this a soda confection is apt to add to the indigestion. It is a good rule to follow each meal with a Stuart's Dyspepsia Tablet to avoid dyspeptic results due to eating and drinking. Should the stomach sour, with water-brash, biliousness, and the peculiar gasiness due to indigestion, these tablets bring relief because they supply the alkaline effect to the stomach and thus offset the acidity of such dyspeptic conditions.

It is well to know this and not deny yourself the pleasures of the good things to eat and drink through fear of indigestion. You will find Stuart's Dyspepsia Tablets on sale in all drug stores at 60 cents a box.

## CHEAPEST AND BEST LAND FOUND IN NORTH DAKOTA, SAYS IOWA MAN

(From Jamestown Alert)

F. J. McGreevy of Ackley, Iowa, who has land interests in Alexander township, Stytsman county, near Alfred, was an arrival in the city today from Iowa, and left on the Midland Continental to look after his farming interests. His tenants are Jacob Kraus and the Flaid brothers. Wheat crop on his farm only went about bushels to the acre, on account of hail damage, although other yields in that vicinity were fairly good this year.

Mr. McGreevy who is an attorney at Ackley, referring to the farm situation in that state and to Iowa land

values, says: "Land that is sold at forced prices such as are obtained thru court proceedings, and land that is sold by the owners on strictly cash basis, is bringing considerably less than a year ago. I have in mind three sales of this nature where land that would have brought \$300 an acre a few years ago, was sold for \$200, this fall. If terms had been given and part cash accepted there would not be much difference in land prices in our part of the state, from last year. Our corn was good but oats and potatoes light in yield. Potatoes were bringing 1.75 per bushel in the local market when I left home. North Dakota

land for the quality and ease of cultivation and returns for good farming, is the cheapest land at present figures that I know of any where in the country."

NO SCHOOL TWO DAYS.

School kiddies will have two days of vacation next week. There will be no school on Wednesday, October 12, which is Discovery day, or on Friday, Oct. 14 when the teachers will attend the district meeting of the North Dakota Teachers Association at Mandan. School will be held Thursday, Oct. 13. All teachers are required to attend the district session at Mandan and Superintendent Martin expects a 100 per cent enrollment from Bismarck.
